

A SOUND SAFARI

Join Renee LeBeau in an Adventure in Sound

Explore the transformative power of sound to move you into greater harmony, expansiveness and inner knowing. Renee will use her voice to guide you into a deeply relaxed state. The Tibetan singing bowls are played with the intention and frequency of grace and gratitude. This can be utilized to dissolve blockages, open/rebalance your energy centers and create more space for your true essence to reside within you.

- **Bring a blanket to lay on and water to drink. You must be able to lay down or sit for the entire time period.**
